

SELF-DECLARATION / PERMISSION LETTER

For IMD Data API Access Registration

Date: _____

To,

The Nodal Officer / API Access Committee

India Meteorological Department (IMD)

Ministry of Earth Sciences, Government of India

New Delhi

Subject: Self-Declaration and Authorization for IMD Data API Access for Baagicha Agricultural Platform

Respected Sir/Madam,

I, **Tarun** (Name of Applicant), residing at _____, do hereby declare and state as follows:

1. PERSONAL & ORGANIZATIONAL DETAILS

Field	Details
Full Name	Tarun
Email Address	coding.tarun@gmail.com
Contact Number	_____
Organization / Project Name	Baagvaani
Platform Name	Baagicha
Organization Type	Individual / Sole Proprietorship
Nature of Work	AgriTech Software Development

2. DECLARATION OF AUTHORIZATION

I am the **founder, developer, and sole authorized representative** of **Baagvaani** (operating the platform "Baagicha"). I have full authority to apply for, access, and utilize the India Meteorological Department (IMD) Data APIs on behalf of this project/organization.

No other person or entity holds conflicting authorization for this application. I take full legal and ethical responsibility for the use of IMD data within the Baagicha platform.

3. PURPOSE OF API ACCESS

Baagicha is an agricultural technology platform designed to assist orchard farmers in the Himalayan regions of **Himachal Pradesh, Uttarakhand, and Jammu & Kashmir**. The platform provides:

- Real-time weather information and 7-day forecasts
- Spray window optimization advisories
- Fertigation timing recommendations
- Disease risk alerts (apple scab, powdery mildew, fire blight)
- Extreme weather warnings (frost, hailstorm, heavy rain, high wind, heat wave)

Access to IMD's official weather data is critical to ensure **accuracy, farmer trust, and compliance** with Indian meteorological standards. IMD is India's most trusted weather authority among farmers, and integrating IMD data will significantly enhance the reliability of our agricultural advisories.

4. REVENUE DECLARATION

I hereby declare that **Baagvaani / Baagicha is currently NOT generating any revenue** through the use of weather data or any other service. The platform is in the **development and pilot testing phase**, and all services are being offered free of cost to early farmer users during this phase.

If and when the platform transitions to a revenue-generating model in the future, I commit to:

- Immediately upgrading the IMD API account to the appropriate tier (Private / Commercial)
- Re-registering under the correct organization type
- Ensuring full compliance with IMD's commercial usage terms and conditions

5. DATA USAGE & ATTRIBUTION COMMITMENT

I solemnly commit to the following:

Proper Attribution — All weather data sourced from IMD will be clearly attributed to the India Meteorological Department, Government of India, within the Baagicha mobile app and web platform.

No Misrepresentation — IMD data will never be presented as proprietary or original data created by Baagvaani.

No Unauthorized Redistribution — IMD data will be used solely within the Baagicha platform for the benefit of registered farmer users. It will not be sold, resold, sublicensed, or redistributed to third parties in raw form.

No Misuse — The data will not be used for any unlawful, misleading, or harmful purpose. All agricultural advisories generated using IMD data will be presented as guidance, not guaranteed outcomes.

Compliance with IMD Guidelines — We will adhere to all IMD data usage policies, API rate limits, and terms of service as published on the IMD data portal.

Security — API keys and credentials will be stored securely and will not be shared publicly or embedded in client-side code.

6. DATA DISSEMINATION METHOD

IMD weather data will be disseminated to end-users (farmers) through the following channels only:

- **Baagicha Mobile Application** (iOS & Android) — weather dashboard, alerts, and recommendations
- **Progressive Web App (PWA)** — browser-based weather views

- **Push Notifications** — critical weather alerts delivered to user devices
 - **Daily Morning Digest** — weather summary and advisory notifications
- All disseminated information will carry IMD attribution as specified in Section 5 above.

7. PROJECT DESCRIPTION (Summary)

Field	Details
Project Name	Baagicha — Smart Orchard Management Platform
Objective	To empower fruit farmers in North Indian hilly states with weather-driven agricultural intelligence for improved crop protection, spray scheduling, fertigation planning, and disease management.
Target Region	Himachal Pradesh, Uttarakhand, Jammu & Kashmir
Primary Crops	Apple, Mango, Stone Fruits
Expected API Volume	Development: ~500–1,000 calls/day Production: ~10,000+ calls/day
APIs Required	Station wise Nowcast, Sub Division wise Warning, State wise Rainfall, Synop Current Weather, Tourist Forecast

8. VERIFICATION & PENALTY CLAUSE

I hereby certify that all the information furnished in this declaration and in the IMD API registration form is **true, accurate, and complete** to the best of my knowledge and belief.

I understand that the India Meteorological Department reserves the right to:

- Reject this application if any discrepancy or false information is found
- Suspend or revoke API access in case of misuse or policy violation
- Request additional documentation at any time
- Take legal action in case of unauthorized commercial use or data redistribution

I accept all consequences arising from any false statement or misuse of IMD data.

DECLARATION

I, **Tarun**, do hereby solemnly declare that I am the authorized representative of **Baagvaani** (project: **Baagicha**). I have read, understood, and agree to comply with all Terms and Conditions, Privacy Policy, and Data Usage Guidelines of the India Meteorological Department. I confirm that all information provided is true and correct, and that all necessary documents have been duly uploaded.

Signature of Applicant:
